

Westmorland and Furness SEND Partnership

The SEND Partnership provides services for children and young people with SEND work together with parents and carers and the SEND Partnership. They are made up from Lancashire and South ICB and North East and North Cumbria ICB. Teams providing SEND services are inspected by Ofsted who look at:

- How we all work together
- How we co-construct
- How we meet the needs in our local area by providing support at the right time

Every local authority has a SEND Local Offer. The website offers guidance and practical resources for practitioners - to help identify and assess needs, contribute to statutory processes, plan and review support, and work effectively with families and partner agencies across education, health and social care.

For more information about the SEND Local Offer or becoming a SEND Local Offer champion, contact us at:

SENDlocaloffer.WAF@cumbria.gov.uk
